Contact: Jennifer 703-475-7832 or Karen 703-625-0644

Why Team Mounted Sports Grow Character & Confidence

Riders focus on the game and fun while practicing riding in and away from a group, in the open, with noise, spectators, equipment, and traffic. Riding skills improve by switching mounts, known and unknown for subs and strategy. Develop mental and moral qualities for team play with horses and teammates using strengths, strategy, and experience. Practice horse management skill real time: protection, cooling out between chukkas, recovery aftercare, penning without stabling, team play preparation. Extraordinary opportunities available for Championships, Prince Phillip and President's Cups, International Exchange Team USPC. Practice skills for certification advancement and up your game!
